Re: Massachusetts Association of Court Interpreters v. Executive Office
of the Trial Court
Civil Action No. 2016-00969

Dear Katherine,

I am enclosing the Errata Sheets from Norma Mann's deposition. While she signed it and sent it to me, she did not date it. It has taken a while for her to get back to me with the date and I wrote in the date she told me she signed it.

While I am one short, I am enclosing a document that lists the DSRs that were not sent by your office to me. I had saved the DSRs from the disks you gave me by each plaintiff's name and sent them to the plaintiffs. One, from Ms. DeBarros is still missing and she is working on getting that information to me. I will send that information separately to you as soon as I receive it.

I think I had left a message for you on your voice mail that the last disk you sent couldn't be opened. A friend of mine opened it for me but told me that the only thing on the disk were for Spanish and non-Spanish calendars. There is no content to those calendars. I have the pdfs that were on the disk and can send them to you so you can see for yourself. Two pdfs could not be opened.

This leaves for our discussion the other documents plaintiffs have asked for, as applied to them, that were not produced based on your objections. For example, in Plaintiffs' Second Request for Production of Documents, they requested in No. 1a) documents to show whether defendants deem them to be certified or screened; in 1b) they requested defendants to produce their schedules, in 1c) the dates they were assigned to work in any and each court, in 1h) records showing whether plaintiffs were supported by a working partner for full-day trials, records requested in No. 1p) regarding plaintiffs who worked between 1 – 2 pm and the pay they received, etc. While the DSRs provide some

of the information, they do not provide all of the information. The Trial Court keeps records of this information. For example, as to 1h), before entering the courtroom, each interpreter has to sign in (and sign out), so the Trial Court knows who is working in each court room on each day, the times they work and whether there is more than one interpreter assigned to each court session at the same time. And if the Trial Court does not control the use of Language Line, who does?

And these requests go to the heart of how this case was filed in the first place. Despite the fact that the S & P only distinguishes between Full-Day and Half-Day, and provides the rate of pay for each, you and I both know that OCIS was "interpreting" this language to pay on as few as a two-hour basis. If you are correct that the S & P is not a contract, then OCIS is free to treat the per-diem court interpreters any way they want and if the interpreters are dissatisfied, they don't have to accept assignments. That is the way the prior OCIS administration treated the per-diem court interpreters. If however, the S&P is determined to be a contract, then the requested information is important in showing that the "contract" was violated. By leaving the contract claim in the case, the Court obviously wanted to know the facts before determining whether the S & P is a contract. If the S&P is determined to be a contract, the requested documents are needed as to damages.

To be clear, what you have provided are some, but not all, of the DSRs, calendars that do not show when each of the five plaintiffs worked, and nothing more. I know you want to file a motion for summary judgment, and I will join you on a telephone conference prior to your filing, but I will also regard the telephone call as the prerequisite for filing a motion to compel. I will try to call you tomorrow, so I will send this letter to you electronically, in addition to putting the hard-copy in the mail tomorrow.

Sincerely,

Alan Jay Rom
